

Felines and Friends Systems

The following systems are used to meet common small business needs, plus shelter activities such as:

- Cat surrender/intake records
- Veterinary visit records
- Rabies and Spay/Neuter certificates
- Cat "inventory" data and photos
- Data/photos exported to adoptable pet websites
- Adoption Applications and Contracts
- Volunteer and Foster Applications

Here are some of the main systems used by Felines & Friends:

(1) Portal – Older system long-used to maintain cat "inventory"

The screenshot shows the Pet Adoption Portal website. The browser address bar displays portal.rescuegroups.org/welcome. The page header features the title "Pet Adoption Portal" with the tagline "powered by RescueGroups.org" and a paw print logo. Navigation links include HOME, ABOUT US, CONTACT US, SIGNUP, and LOGIN. A sidebar on the left lists various functions: Welcome, Portal Setup, Messages (0), Pet List, Add a Pet, Templates, Print Summary, Header/Footer, Volunteers, Locations, Options, Exports, Manual Updates Beta, Tracker, Toolkit Beta, User Account Info, Logout, Support, and Upgrade. Below the sidebar, there is a "Pet Search" section with a search bar and a "Go!" button. The main content area displays a welcome message to "Bobbi!" and a list of links: [Setup | Pets | Options | Volunteers | Exports | Support]. The content is organized into several sections: "Portal Setup :: Current Portal Account Status" with a link to "Portal Setup" (View your current Portal account setup status.); "Pets :: Add, edit, import, export and create templates for your pets" containing three sub-sections: "Pet List" (View and edit the animals on your pet list.), "Add a Pet" (Add a new pet to your list.), and "Pet Templates" (Setup pet templates to making adding pets easier.); and "Export Pet List" (Export your complete list of animals to a CSV file, which can be imported into Excel or any other data management program.).

Example Description Text:

HISTORY: ARFIE, ADDIE, and AUBREY were brought to us from Artesia, NM by a rescue partner there. These kittens are very active, and love to run, jump, chase and skid around corners. They all love sitting on a tall cat condo and watching birds outside the window, and sleeping in the sun. They are used to wrestling with the three older male cats in their foster home. They all know their names and come when they are called. They hope that their forever home has a lot of empty Amazon boxes, because they are their favorite toys. AUBREY and ADDIE are bonded and should be placed together if possible. ARFIE is more independent.

TEMPERAMENT: ADDIE is a grey torbie with white stripes and peach markings, long, thin body type. She may have the longest tail in Santa Fe. She loves playing in paper bags, and adeptly catches moths if they are within reach. She is an explorer and often gets closed up in a closet or cabinet. She may have the longest tail of any kitten in Santa Fe.

AGE: born approx. 5/10/20

MICROCHIP #: 981020035907488

DATE OF STERILIZATION: 9/24/20

VAX RECORD: FVRCP #1: 10/13/20, FVRCP expires: 10/13/21; Rabies expires: 9/24/21

FELV/FIV test: negative 9/24/20

ADDITIONAL INFORMATION:

ADOPTION FEE: \$100

If you are interested in adopting this cat, please fill out our [Adoption Application](#) completely. In the space provided on the form, please include contact information for three (3) personal references to whom you are **NOT** related or shares your home. For more information, please visit our website at www.fandfnm.org

[Santa Fe Animal Svcs. Permit #20-04]

Addie and Aubrey were adopted together on 1/2/21

When a cat is surrendered to Felines & Friends or comes in another way (e.g., Intake of cats transferred from other shelters, strays, babies born to pregnant moms), data needs to be copied from any available Intake/Surrender paperwork into a new Portal entry. But first we check Portal to see if a previously-adopted cat may already be in our system, in which case the existing Portal entry gets updated.

(2) Pawlytics – Newer system used to maintain cat “inventory” since early 2021

F&F has been attempting to transition from Portal to Pawlytics but is currently maintaining inventory data in both systems. Unfortunately, sometimes entries are added only to Portal; other times entries are added only to Pawlytics. We recently assigned a new volunteer to cross-check currently-adoptable cats in both systems to make sure they’re aligned.

As you can see, the Pawlytics “Pet” section contains cat inventory data.

The People section contains contact data for Volunteers and Fosters, for example:

The Adoptions and Foster teams (volunteers) are largely responsible for maintaining these sections.

In addition, when a cat is surrendered to Felines & Friends or comes in another way (e.g., Intake of cats transferred from other shelters, strays, babies born to pregnant moms), data needs to be copied from the new/updated Portal entry into a new/updated Pawlytics Pets entry. Unfortunately, the structure and contents of Portal and Pawlytics entries differ, so this means a manual copy/paste and re-entry of some data as follows...

* = Petfinder Export Requirement

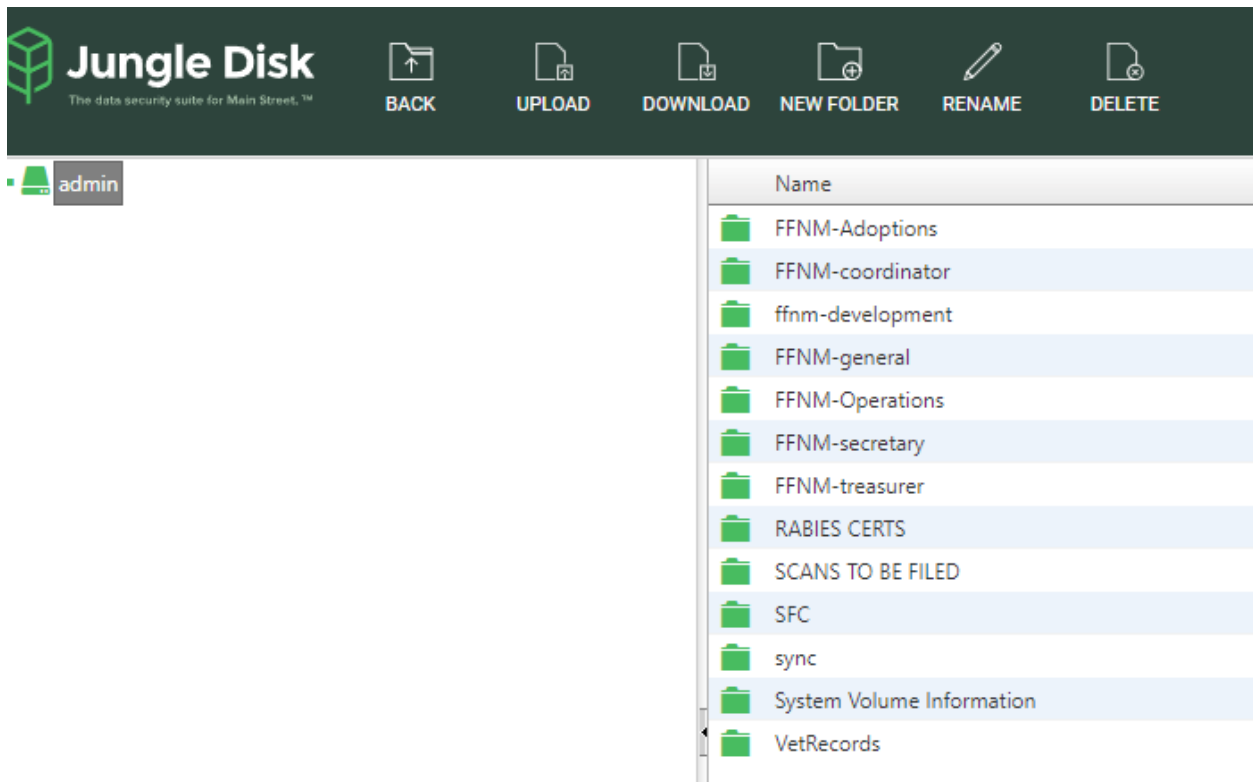

Created: February 27, 2022

It's important to keep the status, microchip, and description text aligned between Portal and Pawlytics, and for the description text to follow the template generated by Portal (including the Permit Number at the end of the text, required by law when taking payment for animals).

It's also important to meet Petfinder Export Requirements. These are marked with an asterisk, and also affect the size and quality of all photos used. When a requirement is not met (for example, missing a weight, adding a photo that's > 5MB) the entry will not be exported to Petfinder and that poor cat will simply be invisible to potential adopters! So we recently assigned a volunteer to regularly check Pawlytics entries to make sure that all Adoptable cats are meeting Export Requirements.

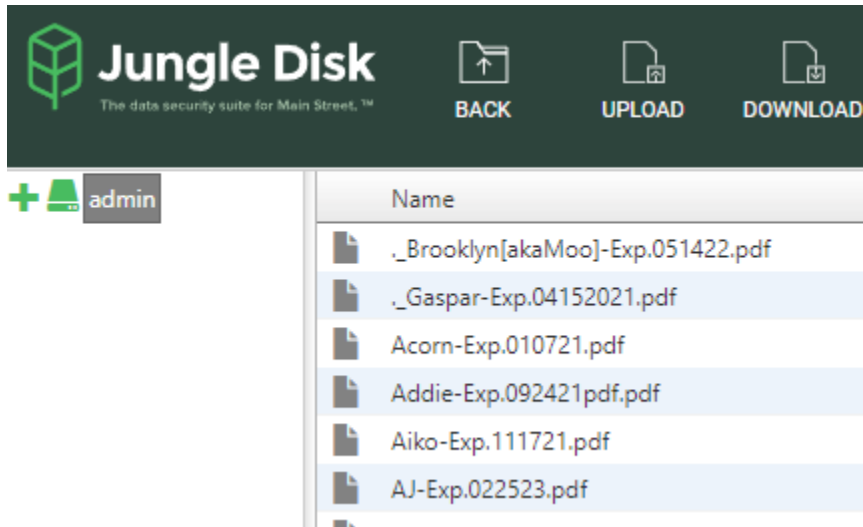

Currently, the Adoptions team, Foster coordinators, staff, and some other volunteers (e.g., Lisa Phifer) are responsible for adding and maintaining Portal and Pawlytics entries. For example, staff may move a cat from Pending status to Adoptable status after they've seen a vet. A Foster coordinator may add a new photo taken by a foster parent. The Adoptions team may move a cat from Adoptable to Adopted status. When a cat is spayed/neutered/chipped/vaccinated, someone needs to copy those dates and numbers from vet records/rabies certificates into the descriptive text.

(3) JungleDisk – A shared file server used to house all F&F business data and shelter forms

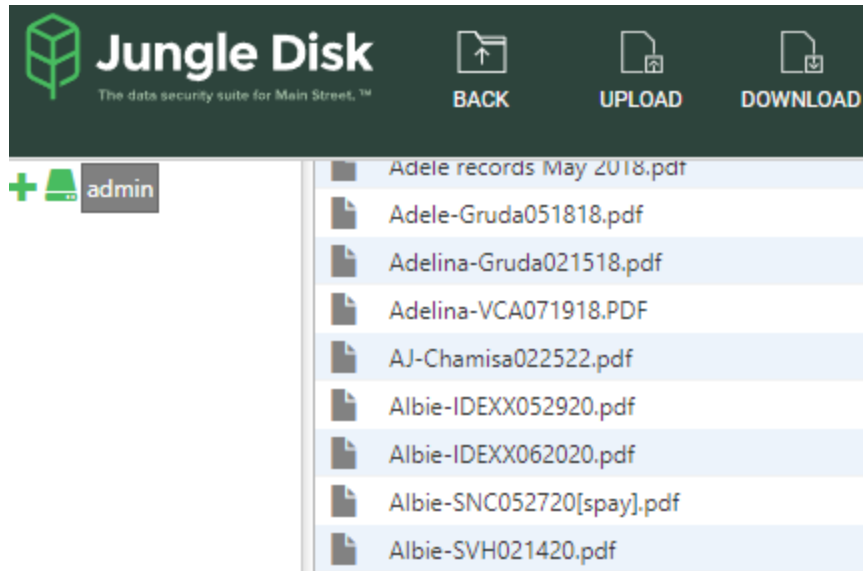

Access to this system is restricted due to sensitive content.

For now, I will just explain some of the forms that are scanned and uploaded into JungleDisk...

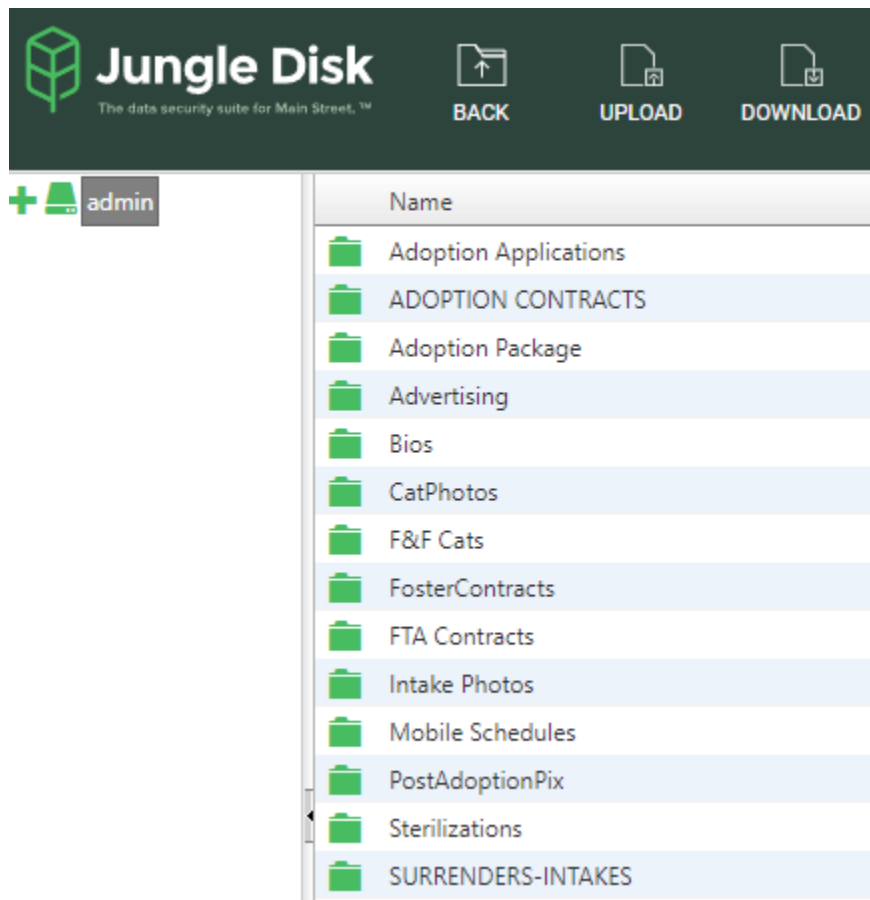

When rabies certificates are scanned and uploaded into the RABIES CERTS/Current, the originals are returned to Santa Fe Cats and added to the cat's physical "Folder" created by Susan. Their "Folder" stays with the cat and gets updated until Adoption, at which time it goes home with the adopter. However, the data on the rabies certificate also needs to get entered into Portal and Pawlytics – this can be done from the scanned file.

Felines and Friends Systems

When vet visit records are scanned and uploaded into the VetRecords folder, the originals are returned to Santa Fe Cats and added to the cat's physical "Folder." This includes vet records received with a surrendered/transferred cat as well as vet records for visits during the cat's time in F&F's care. Some of this information must be copied from scans into Portal/Pawlytics – for example, vaccination dates.

Felines and Friends Systems

When Applications are scanned and uploaded into one of these folders (Foster, FTA, Surrenders, Adoption Contracts), the originals are returned to Santa Fe Cats and kept on file. But like other forms, these scanned forms contain some data which needs to be entered into Portal/Pawlytics.

For example, Adoption Contract information needs to be copied into Pawlytics People and Pets sections. Foster Contract information needs to be copied into the Pawlytics People section. We are currently having a hard time keeping up with these data entry tasks.

Foster information also needs to be linked to the cat's Pet entry so that the location of the cat can be tracked (that is, the name of the foster and the fact that they're in foster care). The Foster Coordinator(s) usually do this. Cats also get moved from Santa Fe Cats (SFC, our boarding facility) to PETCO and TecaTu (our offsite/retail adoption facilities). This information sometimes lags behind actual cat movement and would benefit from being checked regularly.

Below are some examples of forms that get scanned and provide this data...

What is your primary reason for wanting to foster a cat?

I have a sweet cat who needs a companion.

Who shares your household?

Nobody

If there are children in your household, please list their ages:

Are all members of the household aware, and in agreement fostering a cat?

Yes

Type of dwelling:

House

If you live in an apartment/condo, what floor?

Do your doors/windows have screens?

Yes

If yes, How old are the screens?

3 years

Do you have a "dog door"?

No

If renting, are you legally permitted to have cats?

Yes

ADOPTION CONTRACT

In consideration of receiving the feline described herein from FELINES & FRIENDS, hereinafter referred to as F&F, the undersigned Adopter agrees to be bound by the following terms and conditions:

1. Adopter will provide proper and sufficient food, water, shelter and kind and careful treatment for the feline at all times.
2. Under no circumstances shall this feline will be permitted to roam free outdoors. Adopter agrees to provide feline with proper indoor sanitary facilities and keep felines **INDOORS at all times, unless supervised or in a secure cat enclosure.**
3. This feline must wear a collar and ID tag at all time in order to facilitate its return in the event of accidental release.
4. Upon delivery of the feline an F&F representative shall verify that Adopter has in his/her possession a plastic or canvas pet carrier (no cardboard) of appropriate size for an adult cat, which shall be kept accessible at all times for use in the event of an emergency. Adopter shall have a pet carrier per cat. At no time shall the feline be transported other than in said pet carrier.
5. Adopter agrees to take this feline to a veterinarian for examinations and immunizations at least annually and will provide immediate veterinary care should the feline become ill or injured. Said care shall be at Adopter's expense.
6. If this feline is found to be in ill health due to neglect for any length of time, F&F shall have the right to reclaim the feline unconditionally.
7. Under no circumstances shall this feline be declawed. Initials RRS
8. In the event that Adopter is no longer able to provide this feline with a proper home, the feline must be returned to F&F with reasonable notice to facilitate the return of such feline. If the feline is returned for any reason, Adopter will at no time assert any claim or demand against F&F for any charges which may have been incurred in connection with the feline.
9. Under no circumstances shall this feline be sold, leased, loaned, given, gifted, or willed to any third party, pet shop, pound, research laboratory, or similar facility. Initials RRS
10. All felines have been examined by a vet prior to adoption and the feline is assumed to be in good health at the time of adoption (unless otherwise noted on this Adoption Contract. Adopter is fully aware that F&F makes no guarantees whatsoever as to the future health of the feline. Adopter hereby fully and completely releases F&F, its agents and volunteers from any defects or illnesses the feline may have or develop, and from any claim, cause of action or liability for any injury of or damage to persons or property which may be caused by the feline, and to indemnify and hold F&F harmless against all claims, including, but not limited to, those asserted by third persons, for any injury or damage to persons or property caused by the feline. I acknowledge receiving information regarding follow up vet care. Initials RRS
11. Adopter shall pay F&F \$500 as liquidated damages in the event Adopter breaches any of the provisions of this Adoption Contract. Adopter further agrees that F&F shall, in addition to the collection of such liquidated damages, retain all of the other remedies, including, but not limited to, the inspection and reclaiming of the feline provided for in this Adoption Contract and allowed at law or in equity.
12. Adopter agrees to pay and reimburse F&F for any and all legal fees and court costs it incurs in enforcing the terms and conditions of this Adoption Contract.
13. This Adoption Contract shall be governed by the laws of the State of New Mexico
14. In the event that any term, provision or paragraph of this Adoption Contract is, or is declared illegal, void or unenforceable, this shall not affect or impair the other terms, provisions, or paragraphs of this Adoption Contract and the doctrine of severability shall be applied.

Agreed and accepted this the 25th day of October, 2021 by Rebecca Stone Signature

 Known Health History: Healthy

Notice that some surrender data gets updated after the cat is added, as forms are often incomplete. This is an example of why data gets out of sync between Portal and Pawlytics. Often someone adds/updates data in one system but not the other.
